WHOLESALERS PTY. LTD

USE TIMBER – THE MOST ENVIRONMENTALLY  
FRIENDLY BUILDING PRODUCT ON THE PLANET

## InStyle Decking is the best solution to an age old question

Which decking is right for me? With InStyle Decking, we have made the decision easy with a large range of different timber options for your next project. Our timber is hard wearing, beautiful, environmentally sustainable and cost effective, making it the obvious solution for your decking needs.

### Why InStyle?

Nothing says Australia more than having your very own timber deck. Creating a comfortable environment for relaxing, entertaining and spending time with your loved ones is something we understand. At InStyle, we are proudly Australian owned, and provide the highest quality decking in the most popular Australian species. We can also supply sustainably sourced exotic timbers, making InStyle Decking the complete solution for all of your decking requirements.

## Custom Runs

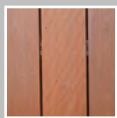

While InStyle Decking is manufactured in standard sizes, we understand that sometimes matching an existing size or profile might be difficult, and that's where the InStyle Custom Machining is a winner. We can match virtually any size decking boards, and can source many timbers that may not be so readily available. Have a chat to your local InStyle reseller to learn more about our custom machining.

## Only the Best

InStyle Decking is manufactured using only the best timber available, and manufactured in the following species:

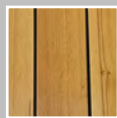

Blackbutt

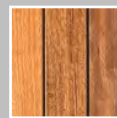

Ironbark

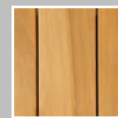

Merbau

Silvertop  
Ash

Spotted  
Gum

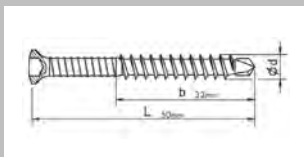

Vitex  
(Pacific Teak)

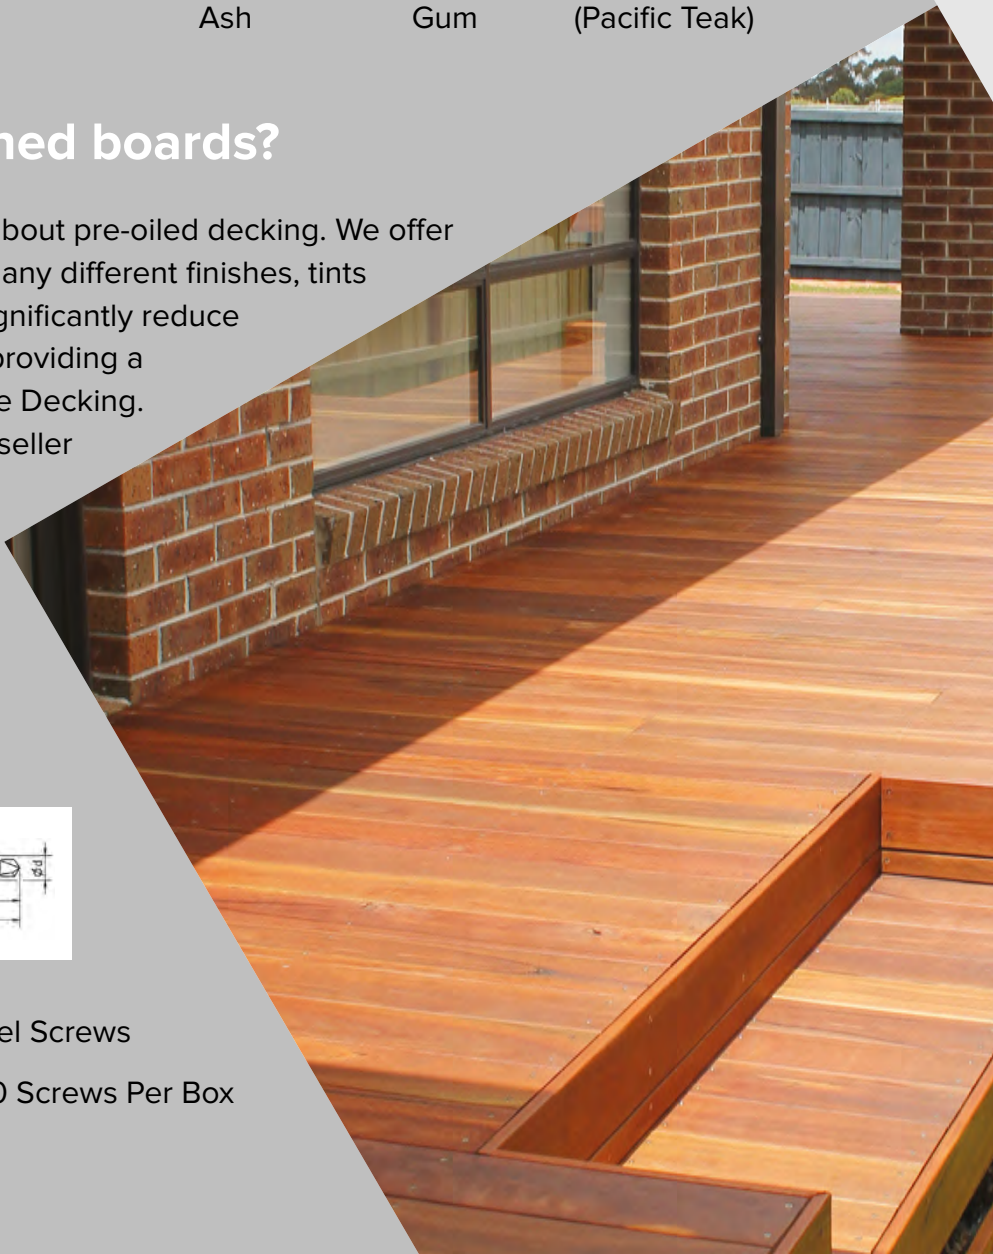

## What about prefinished boards?

Don't worry, we haven't forgotten about pre-oiled decking. We offer InStyle decking factory coated in many different finishes, tints and colours. Factory coating will significantly reduce production times and costs, while providing a consistent finish to your new InStyle Decking. Have a chat to your local InStyle reseller about our factory coating services.

## Screws:

- 12G x 50mm – 316 Stainless Steel Screws
- No.2 Square Drive screws – 250 Screws Per Box

Who is bringing InStyle Decking to you?
