

Concrete Stumps

Threaded Stump

Product Information

400mm – 1800mm (in 100mm increments)

- 100mm x 100mm concrete stump
- Reinforced using a galvanised threaded rod that protrudes from the top of the stump by 150mm-160mm
- Made to Australian MPa Standards
- Nut and washer included
- Ideal for decking, new builds, replacement or restumping of existing homes

Reblocking Stump

Product Information

400mm – 1800mm (in 100mm increments)

- 100mm x 100mm concrete stump
- Reinforced using a steel rod
- Galvanised steel loop on one side only
- Made to Australian MPa Standards
- Commonly known as a “hanging stump”
- Ideal for replacement or re-stumping existing homes
