

BAL12.5
entry doors

This comprehensive range of Corinthian entry doors have been performance tested to AS1530.8.1 criteria, to meet all regulatory requirements for buildings in BAL12.5 zoned areas, while not compromising on aesthetics or functionality.

All Corinthian BAL12.5 entry doors are available as a door only or installed in a frame. Corinthian BAL12.5 frames are also available separately.

- Door only must be installed in a deemed to satisfy or AS1530 tested frame
- A frame single door
- B frame double doors
- C1 frame single door plus one sidelite
- C2 frame single door plus two sidelites

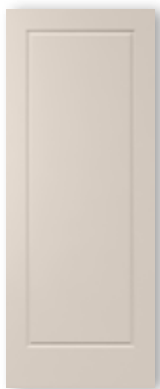

Routed doors are available up to a maximum door size of 2340mm x 1020mm x 40mm.

Joinery doors are available up to a maximum door size of 2700mm x 1200mm x 40mm.

Routed doors are available with a veneer skin option.

Not all options are available in all locations. Consult your Corinthian branch for details on available glass, frame, and door options.
