# WHY THE CHOICE IS EZI

## EZIPIER - FLUSH TO BUILDING LINE

Designed so piers do not protrude outside the building line making it a neater finish for all traders.

## EZIBRACE - HIGH CAPACITY, FAST INSTALLATION

A high capacity bracing system that's easy to install on low-set and high-set elevated floors.

## ENGINEERED AND CERTIFIED

Ezipier heads and bases have been engineered in a variety of sizes to suit most site loads.

## EZIPIER & EZIBRACE COMPONENTS
