Keyless Wireless Digital Deadbolt

The Lockwood Keyless Wireless Digital Deadbolt offers the flexibility of a keyless entry locking solution whilst providing wireless ZigBee (HA1.2) network connectivity to integrate into building automation solutions.

Key Features

- One touch locking
- 250 user codes (when Networked)
- 9V Battery terminals for emergency
- Networkable

The product fits majority of doors with a 54mm hole, making it ideal for new doors or replacement for an existing door lock.

Wireless Network Connectivity
This product can be controlled remotely by smart phones, tablets and web-enabled devices once it has been integrated with home/ building automation systems using a ZigBee wireless network module.

Illuminated Touch Screen Keypad
The touch screen keypad has no mechanical buttons which means no trace of your secret pin code.

Pin Code Allowance
One master pin code will manage up to 250 user codes when used with a wireless network module or 25 user codes when not networked.
Voice Guided Programming
Voice Guided Programming will audibly provide step by step programming instructions.

One Touch Locking
Conveniently lock your door by simply touching the keypad or use the automatic locking function.

Retrofitable
Fits majority of doors with 54mm hole.

Rebate Kit Accessories

Part Number	Description
7579SSS	Universal Rebate Kit
7574SSS	Strike Square Corner

Keyless Wireless Digital Deadbolt

Safety

Never Carry Keys
Keyless PIN code access ensures security whilst away and allows people entrusted with a PIN code to gain entry with the simple push of a button.

Automatic locking ensures your family and valuables are constantly protected as the door is locked after a 30 second delay when either entering or leaving the property.

Security

Resting Easy All Night Long
Privacy mode provides ease of mind by disabling the keypad to ensure that no one can enter the property from outside while you are sleeping, with the exception of close family entrusted with a key.

Remote Management

Remote Access Control
The Wireless Digital Deadbolt lock status can be viewed and controlled via a PC, Notebook, Tablet or Smartphone. Simply lock or unlock your door from anywhere in the world.

Receive a text message or email alert when the door is accessed to know that your loved ones have arrived home safely (when integrated with Remote Management Software).

Available functions may vary based on your home automation control software.

Convenience

Trigger Other Devices
Integration with Remote Management Software will enable you to turn on other devices when you open the door using your unique PIN code including:

- Unlock all doors
- Turn on the interior house lights
- Turn on the TV
- Adjusts the thermostat to 21°C
- Close the curtains

Note: Available functions may vary based on your home automation control software.

Control

Building Automation & Integration
The Lockwood Wireless Digital Deadbolt has been designed to easily integrate with a variety of wireless building control and security systems when used with ZigBee HA1.2 wireless network modules. Remote management puts you in control of protecting what is valuable to you from anywhere and at anytime.

User Interface Functionality

View/Change Lock Status
The lock status can viewed or changed on a Smart Phone, Tablet or PC. From anywhere in the world, remotely unlock the door for a neighbour or a caregiver.

Setup/Management
Set-up each lock and control the management of users on every door where a Lockwood Wireless Digital Deadbolt is installed.

History
View the history of who comes and goes at each door.

Trigger Other Devices
Use the lock to trigger other devices within the building such as lights, thermostat, alarm system and more.

Text/Email Alerts
Receive text or email alerts to inform who has entered the building and at what date and time.

Available functions may vary based on your home control software.
